What did you like best about the program?

Talked about being a friend, even when the friend is different. He explained & students could see his differences but he could still be a friend and no one likes to be teased.

What will you tell others about Ben D. Anderson's presentation?

Much more effective than a person in a suit with a power point. Ben was a real person, a walking example. He took questions from the kids, had a sense of humor.

Anything else you would like to share?

Very effective talk for kindergarten. We have a student with CP, hopefully some students made the connection.
